

Specialty-Shaped Windows from Gorell

Gorell specialty-shaped products allow you to truly custom design your windows to meet your unique needs and personal preferences. You can choose from window styles that change your home's architectural look, designs that create dramatic accents or focal points while introducing more light into your home, or designs that complement your entrance way—even around your patio doors.

Gorell specialty-shaped windows feature heavy-duty, fused frames and automotive-type glazing. They're engineered for long-lasting durability, superb energy efficiency and excellent security.
