

4200 SERIES Storm Doors

You'll appreciate Gorell storm doors for their ability to protect your primary entry doors—and home—from the elements while allowing ventilation when needed. Built tough for everyday use, these doors are made to operate smoothly and reliably for decades. Quality-crafted Gorell storm doors exude elegance, style and taste. A myriad of distinctive door styles allows you to customize the look of your entrance to your own tastes and preferences.

STANDARD BENEFITS:

- 3-3/4 inch-wide commercial-grade extruded aluminum frames—in soft white—provide an aesthetically pleasing appearance and exceptional durability.
- Two layers of weather stripping around the Z-bar help stop air and moisture from entering your home—and provide a close-fitting seal between the door and frame.
- Double-strength tempered safety glass, sealed in a marine glazing gasket, provides cushioning and a tight seal.
- Fully adjustable top and bottom pneumatic closers ensure smooth door operation and keep the door panel rigid and square.
- Beautiful gold-anodized piano hinges ensure that these doors operate smoothly and reliably for decades.
- Heavy-duty extruded aluminum gussets—inside the door frame—create structural rigidity for long life and durability.
- Adjustable bottom expander with triple rubber weather stripping keeps out drafts and moisture and creates a strong seal at the sill.
- Vinyl retainer inserts give Gorell storm doors a sleek, elegant appearance while effectively fastening glass or screen panels snugly within the door frame.
- Screens*—with long-lasting fiberglass mesh—feature heavy-duty frames.

OPTIONS:

- Polished brass mortise hardware with deadbolt and key lock, and traditional black push button latches with optional key lock let you customize the appearance and functionality of your new door.
- Stylish almond or bronze colors allow you to match or contrast your door to the look of your home.
- Foam-insulated kick plates make Gorell storm doors more energy-efficient.
- Beautiful brass clip retainers ensure maximum rigidity and make panel removal easier.
- Aluminum screen mesh provides a more traditional look.

* Optional on some door models.
